Playroom decor hobby lobby

13. Oktober 2017 Yin 19:47 · 8 new bedrooms and playroom decorating ideas for kids: spruce up your little one's space? From adventure to glam, we have some looks to make the perfect place to play to suit any kid's style! Click on the image to change the design image of the room that is not available Color: Oh, Hobby Lobby, I love you! If you're familiar with Hobby Lobby, you already know you have something for everyone, from cheap rustic accessories to horse-themed accessories. My mission? I take my kids to Hobby Lobby so that kids of all ages can spend time and collect some fun inspiration for different decorating room themes to love! My favorite feminine room is 1. The power of the petal pink dream pink! My Petal Pink Dream Room is the perfect understated feminine room for all lovers, pastel pink, delicate and feminine. My daughter loves this modern looking chair! Even better, it comes in her size, making it the perfect addition to any art corner in the bedroom or playroom. Do you have a bigger child? It also comes in regular sizes for just about \$7 more! I found this gorgeous flower lamp, and the pictures have a nice texture, which does not do any justice! Plus, this woven basket exceeded my expectations with perfect pastel and white shades decorated with handles that looked organic. Anything is possible with such powerful emotions hanging on the wall of your little darling. This framed work will create the perfect finishing touch to your little girl's space. 2. Nature Sanctuary A room that will leave a woman feeling free and whimsical, and bohemian-inspired room décor is a bohemian-inspired room decoration that will make you a bohemian dream! How fun are these pieces? I never mind decorating children's space, and wanted to take them all home! The wooden candle holder was the perfect inspiration for this theme, and the quality was better than I expected! The wooden mandan detail really adds a fun element of style. Adding different lights to this space is another way for me to incorporate unique and interesting elements. Is this little pineapple stringed instrument lighting too cute? And sitting on a shelf just below them, I found this pink salt lamp I had picked. I had to look inside the box to see if it met my expectations and I was so happy to see it was made of real pink salt, and it was so gorgeous! Sometimes I think bigger pieces of furniture can be a hit or miss in Hobby Lobby, but I'm totally in love with the rattan chairs they sell. I was so impressed with the quality and I could totally see this cute chair sitting in the corner with a cute white velvet foam pillow which I found! Butt tip: You can't have too many pillows! Jump here to see my favorite kid's throw pillow! (Psst... they're all under \$20! ☺) 3. Grey Horse Escape I love throwing a modern twist on such a popular theme. What woman doesn't dream of having her own horse at least once in her life?! With this gorgeous white Horse printing is what started it all for me when I designed my horse room. The picture certainly doesn't do any justice, but I think it's the perfect size to make any statement on the little girl's grey horse escape. This vintage pinboard was another item that exceeded expectations with beautiful quality and distressed detailing. I imagine she would look perfect through a small homework station in the girl's room where she could pin all of her favorite photos and notes. Need some more hanging space? This heavy wrought iron horseshoe hook will be suitable for hanging all her riding gear. I couldn't believe how perfectly this grey faux fur basket and fringed blanket went with my horse theme. It reminds me of a gorgeous horse mane, and I thought both added a cozy perfect touch to the dream room of a horse lover. 4. Pretty pink glam sometimes girls need to go full attraction with their space, this room! With all the glamour, glamour and bold colours, the Pretty Pink Glam Room offers the ultimate feminine space. Every female girl will have a nice mirror to her vanity for perfecting her makeup skills. With a pink pencil cup, makeup brush or homework pencil good, and perfume sprayer, she will definitely be gorgeous! Speaking of glam, I don't think watercolor lipstick prints and eyelash and lip prints can get many chicer! Both fit serious celebrity status and will look perfect in any glam room! Attractive girls just can't have any lights! So I seriously liked the decorative string lights that could create the perfect touch in this feminine space. Here are some more male room décor ideas I love to put together! 1. Sports Goal Room I know that the sports theme is top of my list because my two boys love playing everything under the sun! I knew I wanted this space to be fun and unique for everyone who loves sports. This basketball hoop was the first on my list for this sporty room. It's not something you can see in every little boy's room, it's so much fun. Better yet, it gives them something to burn all their energy. Besides, the quality exceeded my expectations... I think mom or dad might get into this fun! Football Bank is the perfect way for your man to hide all his allowances and save for tickets to his next favorite sports game. And I really liked how realistic it was, which gives him a timeless charm and not something that has the potential to get sick as he gets older. Don't quit Perfect reminder for all our kids. Never give up on your dreams, keep going, always inspiring. These wall decorations will give them the extra inspiration they need. 2. The space between the minimalist breeders can really be for anyone. I loved making the room with timeless sculptures and a touch of love for all the animals. Staple pieces have rooms together and create timeless elements that make switching at each stage much easier over the years. So I love this tree. They are perfect for storing all the stuffed animals you love as a child and hiding magazines and other treasures as you get older. I absolutely loved this baby elephant print, but I found out that hobby lobby has lovely llama and baby giraffe prints. All three looked so perfect in the nursery or nursery. 3. The predictions for this room for the coastal captain's quarter are all things blue with the boat! I love a good coastal room that is understated yet still makes you feel like you are at sea! Every children's room should have a high quality basket to store all your favorite toys. I couldn't think of anything better than this beautiful blue grey basket with rope handle to make perfect coastal details. Ahoy, Matey! Nothing shouts up the coast like a giant boat steering wheel. Whether your man is wearing a pirate ship of his own or sailing across a large blue ocean, this is the perfect wall decoration for a boat-themed room. This delicate fish rope wall decoration is a great way to maintain your coastal theme without going completely by boat. 4. Stylish globetrotters My kids love to travel and enjoy new experiences, so it was so much fun to make this room. I wanted to create a stylish room suitable for adventurous souls of all ages. This vintage map tapestry is a piece of the same door on the wall. Besides, it will definitely help with any social research homework they bring home. ☺ legend of the New Year's Zelda Journal was my oldest goalkeeper! The gold detailing on the outside and the high-quality hardcover make it look like a thing your little one will cherish forever! This concrete lamp wasn't as big as I originally thought, but I was hooked on a simple design and, as you saw, I thought it went perfectly with a couple of my decorative themes! The canvas lamp shade is printed to look like concrete and I think it brings such a unique and modern touch! With a small earth, they will make the perfect decorative item for your homework desk or nightstand. 5. Red Rustic Hideaway I love the unpretentious trend these days, but sometimes it can be difficult to integrate into a children's room without being too grown up. I really loved all these pieces, and they still felt so fun and practical for any age! When I found this wooden pallet deer in the store, they were much bigger than I expected. They are so cute that we all want to go home with us! What child does not like the blackboard? I liked this size which was perfect to hang in the homework space and write down important notes or even draw. This adds these fun and unique elements to the kids space. If you missed it, here is my other Hobby Lobby decoration theme post! Raise!
